

HIKING FONDURANE RESERVE

DURATION : 1 HOURS 45

LEVEL : EASY

DISTANCE : 5 KMS

DROP : 50 METERS

It is a real reserve of the living! Located on the eastern arm of Lake Saint Cassien, we discover a multitude of animals that accompany us during a walk.

Access: From the D562, take Chemin de Fondurane (located at the corner of the "la halle" store)

Departure point: To the right of the car park, on the other side of the road, sign for the entrance to the reserve. You can park in the Fondurane Reserve car park (free)

Itinerary:

- From the car park, cross the river by the footbridge
- Continue on the road which climbs slightly
- Take the DFCI G30 track on the left. You are in the valley of la Carpenée
- The track continues and brings us to a left turn, then climbs slightly.
- On the left, take the path to the barrier. You will go to an ornithological observatory through the forest of Fondurane. Do not hesitate to take the time to admire the flora and fauna!
- Continue the path which makes a loop
- Return to the car park by the route followed on the outward journey.

it is appropriate for everyone to adopt an eco-responsible attitude: no papers or litter, keep animals on a leash, do not leave marked trails because the fauna is sensitive and may no longer come or go. 'escape...
